

DIVINE SPEECH MOST BEAUTIFUL FORM OF VOICE

Dr. Pramila.

Speech is said to be of four types – normal, mental, inner and silent. The normal speech is the usual conversation in our daily life. The words are pronounced with the help of throat and inner tongue region. The speech that is made after some thought is called mental speech. In this case the words are transmitted out of our mind in spite of our silence. The thinking that goes on in the heart is inner speech. The soundless speech is called silent speech. This is used when we converse with God or while praying

Speech is said to be of four types – normal, mental, inner and silent. The normal speech is the usual conversation in our daily life. The words are pronounced with the help of throat and inner tongue region. The speech that is made after some thought is called mental speech. In this case the words are transmitted out of our mind in spite of our silence. The thinking that goes on in the heart is inner speech. The soundless speech is called silent speech. This is used when we converse with God or while praying.

The speech is said to be the ray of hope by which the mortal unites with the immortal. This is also known as the God's speech. Only lucky people can hear this speech. Those who are able to control their sense organs use this speech with high spirits. Those who come to this world as messengers of god to obey the orders of the almighty can hear this voice. Sri Krishna's discourse to Arjuna in the Bhagwadgita comes under this category. Ramakrishna Paramhansa and Swami Vivekanand example can also be quoted here. Once Sri Paramhansa was suffering from throat pain. His disciple Vivekananda insisted that he should speak to the Goddess- 'Oh! Mother, I am unable to eat anything due to this throat pain. See that I am able to take a little food'. On hearing this Goddess said- 'why are these all not eating and sleeping'.

One more example can be quoted in this context. Once swami Vivekananda asked Turiyananda to go to America and work. Vivekananda told Turiyananda- 'mother wants you to go to America and work. Turiyananda asked – 'How did you hear her voice?' Then Swamiji replied – 'you can also hear her voice as others do. But you need minute sukshma naadi to hear this.'

Yogirishi Swami Ramdev always says – 'My God is inside me and I am in my God. Never be disappointed; never be sad, you are the divine son and the divine daughter. You are the children of that almighty God. Have faith in God, and in yourself. You have the capacity within you to remove all illnesses or diseases. Always remember that God is with you. Then why are you disappointed? Everyday Ramdev Ji's speech touches the heart of thousands of people. Such immortal spiritual speech remains forever in the mind.

The people with sukshma nadi have pure heart and those whose mind is pure can think with humanity. Whose speech and deeds are one and the same, those who believe in God, who has faith, and those who are emotional, who respects the Guru and the almighty can hear this divine speech.
