## About Us

DSC-Strand Ltd was created from an original company formed in 1957 and based in Camberley. The name derives from previous businesses from which DSC was born initially or associated with subsequently, including Symonds Camberley, Strand Insurance Brokers, Davis Insurance Services and SC Insurances.

Since the mid-nineties there has been a change in emphasis away from the personal or 'consumer' insurance towards commercial with medical malpractice insurance becoming a particular speciality.

We handle all-manner of commercial risks incorporating standard business insurance packages through to specialist Professional Indemnity cover.

The emphasis on Holistic Health and Therapy insurance has been developed because of Managing Director Nigel Wissett-Warner's close personal involvement with this community.

## About Yoga-Link

Yoga-Link is the brand-name of the bespoke scheme we arrange. The basic cover provided is Malpractice and Public Liability insurance combined with an indemnity limit of £5m as standard. This is Public Liability with the 'treatment' risk included. Effectively, this indemnifies the practitioner against claims arising from instruction given, in addition to third party (Public) Liability more generally.

This 'Instructor's Indemnity Insurance is suitable for both Yoga Teachers and Yoga Therapists alike.

The basic cover can be enhanced to incorporate full Professional Indemnity insurance in order to accommodate those that teach or train other teachers, or who deliver teacher-training courses.

More information is available on our website: [www.yoga-link.co.uk](http://www.yoga-link.co.uk) including a pdf version of the full policy wording. The documentation we issue to our clients incorporates a summary of the policy benefits, when supplying our quotation. Then confirmation of cover can generally be issued within 2-5 working days and consists of personalised schedule and certificate, plus the 14-page policy booklet.
